IN SUSTAINABLE DEVELOPMENT, HEALTH AND GLOBAL JUSTICE THROUGH SERVICE-LEARNING

ApS is the acronym for “Aprendizaje-Servicio”, what means Service-Learning in Spanish. iApS2030 refers to a transdisciplinary innovation unit developed in the University of the Balearic Islands.

Members belong to diverse disciplines in health and social sciences, law, education, business administration, natural sciences, engineering, language, etc. from different international universities and organizations.

Sustainability is a transversal ethical principle that affects all areas of knowledge and, at the same time, it is an intervention method that encourages human action to have not only the least possible, but a constructive impact for the environment. iApS 2030 promotes transformative education and ethical civic engagement through service-learning, focusing on these three interrelated topics.

SUSTAINABLE DEVELOPMENT

iApS2030 is about human interconnection with nature, focusing on contextual, participatory and relational practices. Aboriginal and naturalistic knowledge as well as innovative ways to develop the sense of belonging to planet Earth are some of the areas of interest.

HEALTH

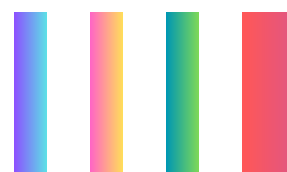

iApS2030 is about health as a dynamic and multidimensional construct. The unit focusses on health equity, planetary health, urban and social determinants of health. Mental health and early childhood are relevant areas for us as well as innovative strategies to build healthier environments.

GLOBAL JUSTICE

iApS2030 is about global social justice, focusing on migrations, solidarity, gender, and cultural heritage. Linked to human rights, democracy and values education this unit seeks to reinforce social responsibility, inclusion and dignity in diverse contexts.

Three reasons why you should support our UNIT

iApS2030 is an unique organization that aims to facilitate “BIG WINs” between global challenges and individual personal development through education.

iApS2030 follows the structure and funtioning of a LIVING LAB, an open system that integrates innovation processes within public - non profit - private alliances.

iApS2030 promotes the development of ADVOCACY TANKS in particular topics aimed to advice policymakers. It also works as a HUB for other local, european or global organizations.
